TRYON RESORT

Tryon Resort will feature the newly built world-class Tryon International Equestrian Center, which opens on July 2 with five riding arenas and 500 stalls; the Resort will include an architecturally stunning hotel, a luxury resort with destination spa, an Arnold Palmer designed golf course, and hundreds of luxury homes.

The world-class Tryon Resort is a 1,400-acre retreat which features the brand-new Tryon International Equestrian Center. Located in the rolling, picturesque foothills of North Carolina's Blue Ridge Mountain Range and surrounded by numerous year-round activities, the project has already created hundreds of new construction jobs, and will contribute hundreds of permanent jobs and tens of millions of dollars to the local economy and tax base.

Tryon Equestrian Partners, which commenced the project in January 2014, employed over 500 people to move 1.6 million cubic yards of earth, build five riding arenas with world-class footing, erect 500 permanent stables, lay over seven miles of fiber optic cable, create miles of walking and bridle paths, install utilities, and build over 20 permanent structures including several homes in the resort's new Log Cabin Village.
